## Looking for Internship

📞 7973182512 @ kshakya154@gmail.com 🔗 <https://www.linkedin.com/in/kamal-kumar-82890727b/> 📍 Patiala

## SUMMARY

Seeking an internship opportunity to apply and expand my technical knowledge, contribute to innovative projects, and gain industry experience in software development.

## PROJECTS

### Balloon Decoration Booking

**Balloon Twister** is a sleek and user-friendly web application designed to simplify the process of booking balloon decorations for events. Whether it's a birthday party, wedding, baby shower, or corporate event, users can browse through beautifully designed balloon themes and easily reserve the one that fits their occasion.

### Mega Blog

- I developed a Mega Blog website using React.js, where users can post and view blogs. For the backend, I integrated Appwrite, which provided seamless authentication, database management, and storage solutions, enhancing the overall functionality of the platform.

### Todo-List

- I created a To-Do List App using React.js, where users can add, edit, and delete tasks. The app provides a smooth user experience with features like task completion, local storage support, and a clean UI for better task management.

### Password Generator

- I developed a Password Generator website where users can generate strong and random passwords. The website allows customization of password length and character types, ensuring secure and reliable password generation.

## SKILLS

Html Css Js   React js   C++   DBMS   Redux   Python

## EXPERIENCE

### Summer Training

#### Solitaire Infosys Inc

📅 06/2023 - 08/2023 📍 Patiala, India

#### Company Description

- I completed my summer training, where I learned Tkinter using Python for GUI development. During the training, I developed a Pharmacy Management System, which helped me understand database handling, user interface design, and application functionality.
